

ASSIGNMENT 3A

Code :

```
// Creating the server
http.createServer((req, res) => {
  const parsedUrl = url.parse(req.url);

  // Handling root URL request
  if (parsedUrl.pathname === "/" ) {
    res.setHeader('Content-type', 'text/html');
    let fileList = fs.readdirSync("./");
    let filesLink = "<h1>List of files:</h1><ul>";

    fileList.forEach(file => {
      if (fs.statSync("./" + file).isFile()) {
        filesLink += `<li><a href='./${file}'>${file}</a></li>`;
      }
    });

    filesLink += "</ul>";
    res.end(filesLink);
    return;
  }
});
```

OUTPUT:

List of files:

- [Finally_Final_Logo_pictofest_25\[1\].png](#)
 - [index.html](#)
 - [StaticWebServer.js](#)
 - [style.css](#)
-
